

F530

**WORKGROUP FAXING COMES
WITH EXTRA PRINTING POWER**

Productive, economical faxing now comes with network print when you need it

In a busy workgroup, fast, continuous faxing and printing is essential to keep your business flowing. Look no further than the Gestetner F530, for an innovative fax solution to meet the demands of your workgroup.

Designed with efficiency in mind, the F530 offers both fast and cost-effective faxing to all. For even further functionality the network print options enable speedy, convenient printing for all your daily documents.

The F530 from Gestetner also offers a range of functions to maximize user productivity, from one-touch dialling to a large memory capacity. It all adds up to a powerful fax capability for your office with the versatility to print when you need it.

Gestetner's unique approach, links people with knowledge and expertise, combining our wide experience of innovative document related Products and Software Solutions with our world class Business and Professional Services to deliver the best Total Document Solutions for your business.

Fast 15 pages per minute printing reduces time spent at the machine

Quick, Speed and Group Dial keys save you time dialling and prevent errors

Security features ensure complete faxing confidentiality and guard against unauthorized use

Cost-effective faxing

Every fax shows up on your phone bill. So what better way to save money than to minimize your fax transmission time? The Gestetner F530 takes just 3 seconds to transmit an A4 page, making it an economical choice for your office.

Fast features

The Gestetner F530 saves valuable user time. The fast 3 second scanning speed and 15 pages per minute print speed means less waiting at the device leading to increased productivity.

Use your fax as a network printer

Now you can fax and network print from one productivity enhancing device. By taking advantage of the network print options there is no need for a separate device, as the Gestetner F530 becomes a 600dpi quality network laser printer. As such, it can provide vital high quality print support for your team's business documents.

Ease-of-use

Now you'll have no more problems remembering numbers or making errors when dialling. All your frequently used numbers can be stored, and then quickly accessed through the easy-to-use control panel. With 30 Quick-Dial, 100 Speed-Dial and 5 Group-Dial features, faxing is faster and simpler than ever.

Smooth, uninterrupted communications

With the Gestetner F530 your fax communications are reliable and effortless. The standard 6MB memory means that up to 480 pages can be stored, ensuring each fax is smoothly processed without interruption. The device also features a 12 hour memory back-up, so even in the event of a power loss, faxes and settings are safely stored.

Security and control

The F530 provides some excellent security features. Once activated, a PIN is required by users before received faxes can be printed out. The result is extra confidentiality, as private documents are not left lying in the fax output tray. In addition, the F530 can be set up for restricted use. In this case a PIN is needed to send a fax, allowing you to prevent unauthorized use and monitor usage.

Superb paper handling features

The Gestetner F530 brings ease-of-use and fewer interruptions to your faxing and printing. A 50-sheet Automatic Document Feeder enables you to handle large multi-page faxes quickly and effortlessly. With the 750-sheet storage capacity paper replenishment is kept to a minimum. The optional 100-sheet Bypass Tray also allows you to conveniently print on a variety of paper types.

Environmental and cost awareness

The Gestetner F530 has many environmentally focused features. These include an energy saver mode and a fast warm up time. Furthermore, separate toner and Photo Conductor Unit (PCU) saves costs and reduces the waste of natural resources.

Software Solutions

Complementing the F530, Gestetner offers a superb range of Software Solution products, specifically designed to integrate this device into your document communications environment. These Software Solutions are aimed at improving the way you manage documents and information in your organization. Combined with our expert consultancy, Business and Professional Services and support, they offer a tailor made solution to your office, improving efficiency, productivity and cost control.

Fax

Type
Desktop type transceiver
